Everytime I try to close my eyes
I think of you
No matter how high I fly
I think of you
To me the skies seems to be falling
And the sun don't wanna shine no more
Since I last saw you

Whenever I leave you
I can't wait to get back to you
Your like the link that's missing
Boy I miss your cherry kisses
Whatever is so clever
I'll be there good or bad weather
One smile is all I needed
That's why, every time

Every time I try to close my eyes
I think of you
No matter how high I fly
I think of you
To me the skies seems to be falling
And the sun don't wanna shine no more
Since I last saw you

I couldn't imagine
How my life would be without you
You always embrace me
Boy I thank you for your
And I'll be ever thankful but with joy
'Cause I've been lucky
You're there whenever I'm lonely
That's why, every time

Every time I try to close my eyes
I think of you
No matter how high I fly
I think of you
To me the skies seems to be falling
And the sun don't wanna shine no more
Since I last saw you

I can't believe that it was only yesterday
I last saw your face
And I am ashamed to say, I'm ashamed
I want you here with me today
Back in my arms
With me is where you belong
Oooh oooh
That's why every timeâ€¦

Every time I try to close my eyes
I think of you
No matter how high I fly
I think of you
To me the skies seems to be falling
And the sun don't wanna shine no more
Since I last saw you

Every time I try to close my eyes
I think of you (every time)
No matter how high I fly
I think of you

I think of you
Ooooh Ooooh
With me is where you belong
Ooooh Ooooh
With me is where you belong
Ooooh Ooooh
With me is where you belong
Ooooh Ooooh
With me is where you belong
Ooooh Ooooh
With me is where you belong
