Chorus

In the darker days
Everyone seemed so far away
Can anyone reach me down here?
MY life is nothing but tears
In the darker days
Everything seemed so far away
Can anyone see me down here?
Can anyone see me down here?

Verse 1

At the time of your life when everything seems so hard
Close to the start
When it's so far apart
You were the only one who'd ever been there for me
You sat me down; you got me straight and told me to
believe
In myself, and I should listen to the others around
To listen to the lyrics, hear my voice in the sound and
the rhythm
That in this life there are only possibilities
I'm in them
That I shouldn't give them up, not too let them slip

Chorus

Verse2

Come out of the Darkness I'll pull you back into the light
And our wings will spread wider so we can take flight
To a place away from abuse, violence and starvation
And we'll let the people know of a better nation
Where the streets are clean and the kids are safe in
bed
And nothing racial or discriminating is ever said
And this darkness that you speak off will just fade away
And that's my thanks to you for hearing what I had to
say

Chorusx2
