Douse yourself with Gasoline,
Light your soul aflame,
And after nine hard months of lies,
We'll see who feels more pain

How can I feel forgiveness,
After everything you've done?
Am I some kind of angel?
Or is my heart just numb?

Chorus
Angela, Oh Angela,
Push Down her hope and Faith
Angela Oh Angela,
Lets watch her heart brake,
Angela Oh Angela,
Abuse our fragile friend,
Angela oh Angela,
Wont be here in the end

All this time I never thought
I'd meet somebody who would
Chew me up and spit me out
Like any body could

Nine long months of Love of trust
It was you and me, our tears our blood,
No one that I've ever met
Has stabbed me this hard and left me for dead

Chorus
