Verse 1:

I don't owe you anything
So fucking stop pretending
That You cared
Cause I know you never cared
I saw right through your lies
But I didn't see
All the shit that you'd do to me.

Chorus

You kept me inside
You hid my eyes away from the rest of the world
You made it look like I was your special girl
But deep inside your disgusting mind
You never gave a shit
You wanted a goodbye well this is it.

Fuck you.

Verse 2:

I don't have to return anything
Other than what you gave me
And what that is; is not what you want
Even though you deserved everything you got
How could you sleep at night?
Knowing I was laying there in such pain
How could I sleep at night?
With such insecurity
Wondering if every girl would have to grow up like me?

Chorus x2

Coda: You sick fuck

You should have died a long time ago
But you stayed alive for long enough for me to kill you
Not like the way you killed me inside.
I never wanted to deal with this shit
You wanted a goodbye well this is it.

Fuck you.
