Earthquake and fire
This is the only place for a man like me
Earthquake and fire
May woman comes fe take me home
Earthquake and fire
She beneath me began to moan
Earthquake and fire...
We sunk it deep and she start to shake you say
What can I do, she's on fire
Oh my god, that girl's on fire
Go get the bucket and-a fill it with some sheet
This place is coming down, all around me
Earthquake and fire
This is the only place for a man like me
Earthquake and fire
My woman come-fe come-fe come-fe come-fe
Earthquake and fire
She beneath me began to moan
Earthquake and fire...
An angry mother and a father after me
When all I did was make the girls so happy
You're not complaining much, so why come after me
We move, we groove, she move
And all that kind of stuff,
A-yeah a-why a-go a-say a-hey a-ho
Earthquake and fire
Turn out the lights, let me finish it
Earthquake and fire
And when the musics done,
I'll go quietly...
