If you need me, why don't you call me  
Said, if you need me why don't you call me  
Going too long when days go wrong I, I will be there  
Where I belong  
Said if you want me, why don't you send for me  
Said if you want, want, want, all you gotta do is send  
for me  
Don't wait too long, when things go wrong. I, I will be  
there  
Where I belong  
People always told me darling  
That you didn't mean me no good  
But I know, I know deep down in my heart  
I've done the best I could  
And I know it's gonna these days darling  
And it won't be long  
You're gonna be walking through that door of mine  
And you're gonna say those lovely words  
Oh yeah, I always believe...ohhh  
I still love you always thinking of you  
I still love, love, love oh yeah, I gotta love you  
Don't wait too long, just pick up your phone  
And I will be along right there where I belong
