Mean Lean Lazy and Fine  
That's the way I make it make it mine  
Sure Slow Rolling With the Flow  
That's the way I make it make it show  
That's the way I move it  
That's the way I Prove it  
Just so you know Here's how I do it  
Listen How I make it make it Mine  
Every Time

Climbing Funking Rhyming Double K Logically Timing  
Diving off into Time Tunnel Directing Sound like a  
Funnel  
Zooming up into the Altitude Collecting Space Dust  
in a test tube Hypnotising Constantly Rising  
I'm Moriarty Master of Disguising Dangerous  
Out of my Brain Diagnosis Clinically Insane

Now what's going on  
Things have been the same for far too long  
Travelling at a high Velocity  
Boosters Boosting Newton's Theory of Motion  
Many Equations Calculated with Computations  
Complicated Circuitry Liquid Crystal Technology  
Getting Energy Like a Solar cell  
Shoot and Arrow, I'm William Tell  
Tuning into a frequency  
Synchronising in secrecy

Making it Mine, Radiating Spreading out Contaminating  
Double R Ballon inflating KLA cooling out, meditating  
Then I float on up to the Stylus Sphere  
Everything is clear Up here in the Atmosphere

And as I Put on my Headphones  
I can hear The Sound of Silence in my ear Canal  
Metamorphosising I see a black sun rising  
Higher and Higher  
But all happening Prior to my existanc  
Which is far in the distance  
Relating to the past, present and future tense

But we're still rotating  
Creating and always Alternating  
Freewheeling just like Franklin  
Climbing, Funking, Rhyming Double R Logically Timing  
Making Yours, Making It Mine  
Explore the Labyrinth of your mind

::Rap by West::

i pick up the mike  
and then create rhymes  
with a sense of direction  
that's willing and keen  
and then groove  
without nothing to prove  
and to give you a clue  
what new thing to be seen  
we'll take you on up  
bring you back down  
you'll feel good  
we'll help you unwind  
when you feel vibes  
it makes me feel right  
and that's the way that i make it mine

makin' it mine each and every time that i rhyme  
puttin' rap on the line  
doing my thing to the best i know how  
always have fun when i come to kick crowds  
no mistakes allowed, absolutely precise  
doing it right with delivery tight  
when the show's correct everytime  
that's the way that i make it mine
