They say that life is a two-way street  
And you're not sure. You gotta trust your feet  
To know the right way.

You can keep on movin with your head down  
Or you can stop and take a look around.  
And that's the choice I've made.

It's for that movie inside your head.  
Making memories we can't forget.  
And when you can't forget

You're gonna know in your soul  
This is what we came here for  
So live it loud  
Here and now  
This moment, it won't be ignored  
So why not open up that door?  
It's what we came here for.

For every song we let play outside  
The melodies began to write  
Every time we sing  
Friends we've made, fun we've had  
Memories gonna make me laugh  
It's a beautiful thing  
So beautiful

I want to say ti around the world (all around the world)  
Cause everybody should feel this good.

Cause when you feel this good

You're gonna know in your soul  
This is what we came here for  
So live it loud  
Here and now  
This moment, it won't be ignored  
So why not open up that door?  
It's what we came here for

No

The fun's just getting started  
Just celebrating where we are  
And loving who we are

You're gonna know in your soul  
This is what we came here for  
So live it loud  
Here and now  
This moment, it won't be ignored

You're gonna know in your soul  
This is what we came here for  
So live it loud  
Here and now  
This moment it won't be ignored (it won't be ignored)  
So why not open up that door  
So come on open up that door  
It's what we came here (oh yeah)  
That's what we came here  
Came here for
