Would you whisper in my ear?  
Tell me things I want to hear  
Tell me that I am the best you've ever had  
Even if you have to lie to me  
These are words I need to hear right now

Lie to me, tell me what I want to hear  
Would you lie to me just to make me feel like I am  
special?  
If you speak the truth and it is not kind, I wish you'd lie  
to me

Could you look me in the eye?  
Tell me you won't say goodbye  
Tell me that you'll be forever by my side  
Even if you have to lie to me  
These are words I need to hear right now

Lie to me, tell me what I want to hear  
Would you lie to me just to make me feel like I am  
special?  
If you speak the truth and it is not kind, I wish you'd lie  
to me

The truth is overrated  
The truth gets in the way sometimes  
The truth, a hard pill to swallow  
Sometimes I wish that you would just lie to me

Tell me what I want to hear  
Would you lie to me, just to make me feel like I am  
special  
If you speak the truth and it is not kind I wish you'd lie  
to me  
Lie to me, I wish you would lie to me  
Cause if you speak the truth and it is not kind I wish  
you'd lie to me  
Just lie to me
