Afghan Wigs - I Know Your Little Secret

=====

he liked to kiss the boys  
he liked to kiss the girls  
he liked to kiss the inbetweeners  
rub his tongue on their gums  
rub his tongue on their gums  
& lie with them  
& lie to them  
& light it up  
i know your little secret  
watch my eyes  
they see what YOU don't see  
they see what YOU know  
& what YOU think i don't know  
ah but now we both can share  
everything we've ever done  
everyone we've ever touched  
YOU liked the boys and girls  
i know your little secret  
all the lies  
all the hesitation  
won't bring me closer now  
won't you bring me close  
i know your little secret
