Feat. Tay Jardine

So let me get this straight, I said  
So now you decide to apologise  
Please  
Don't make a fool of yourself  
'Cause I won't accept this time  
I've heard it all before

Whatever happened to that person I once knew  
You said you knew me  
And I thought I knew you too  
You can't make my jealous  
Don't you even try  
Your plans undercover  
You've got so much to hide

Just go  
Don't stay  
There's just too many things I want to say so  
Don't let the door hit you on your way out  
Just cut your drama  
Find your own way out  
And leave me

Don't act like you're not the one to blame  
And think that it's OK  
And all this amounts to nothing at all  
Don't think you'll turn your back on me  
And it's just another thing  
You're way worse than I thought  
You're way worse than I thought

Just go  
Don't stay  
There's just too many things I want to say so  
Don't let the door hit you on your way out  
Just cut your drama  
Find your own way out  
And leave me

(I bet that you think that we're done but we're just  
getting started)  
I bet that you think that we're done but we're just  
getting started

Just go  
Don't stay  
There's just too many things I want to say so  
Don't let the door hit you on your way out  
Just cut your drama  
Find your own way out  
And leave me

Just go  
Don't stay  
There's just too many things I want to say so  
Don't let the door hit you on your way out  
Just cut your drama  
Find your own way out  
And leave me
