You made me forget about
have, want and exert
and all of a sudden I feel proud
for being without saying a word
you made me forget about
past and pain
time you washed out
like a soft sudden summer rain

you do me good
you do me
so good you made me forget about
hmmm

You made me forget about
have, want and exert
an all of a sudden I found out
oh it's beautiful the way you wear your shirt
you do me good you made me forget about
hmmm
