Raggin raggin red red raggin  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Raggin

Workin man's, it's a living wage  
Workin woman, equal pay  
No stinking proverty when you're creaking with age  
Ask for these, and all the bosses say is

You're  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Commos to a man  
Well if that's being commo  
It's commo where we stand

Proud black nation gives a long black shout  
Strong black art, Strong black mouth  
Two hundred years too long to die  
But you spit it all out and the white boss cries

You're  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Commos to a man  
Well if that's being commo  
It's commo where we stand

Sixty hours to kill on that endless line  
Sixty hours cause you're the factory swine  
Long long weeks and your brain drags down  
Long long years and your backbone's gone

It's time for  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Raggin raggin red red raggin

Sell your guts at the boss' price  
He pays cash but you pay for your life  
There's women and men standing up to their feet  
While the boss pulls a knife and groans through his  
teeth

You're  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Commos to a man  
Well if that's being commo  
It's commo where we're  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Raggin raggin red red raggin  
Raggin
