All I want, is all I need
You've got to take me fly and fly away
Hold me for all eternity
My love I feel for you
I wanna tell you why make my sun shine
Brighter than a silver screen

Chorus:
All I want
He's all I want, he's all I need
(repeat 5x)

All I want is love, but you
You've got to know what life can mean that much to me
If I have to live my life without yoy baby
You'll have to tell me why
Love is going to die, anyway

[chorus]

It's six o'clock in the morning
I open my eyes and think about you
I thought it was like a never ending fairy tail
But I'm alone in my bedroom, looking at the ceiling
Thinking about what we have what we've done
I was thinking about our life together
Thinking about our love
The only thing I know is
That I'm in love with you
That I'm in love with you
