So it's not  
Loaded stadiums or ballparks  
And we're not kids on swing sets  
On the blacktop

And I thought at fifteen that I'd  
Have it down by sixteen  
And 24 keeps breathing at my face  
Like a manhole  
And 24 keeps pounding at my door

Like a friend you don't want to see  
Oldness comes with a smile  
To every love given child  
Oldness comes to life

The youth, they dream suicide  
Oldness comes with a smile  
To every love given child  
Oldness comes to life

The youth, they dream suicide
