I used to be so warm hearted until (until when?)
She started freezing my blood
That girl had intent to kill
But she is not cold enough

I used to have so many more friends (when?)
Til she started scaring all of them
Now that she's my ex
I don't ever wanna see her again

(Chorus)
Girl I will forget you
Like I always do
Girl I'll find someone new
Who looks nothing like you
Girl I will forget you like you never wanted me to
Girl I'll find someone new
Who reminds me nothing of you

I used to have so many more friends til (WHAT?)
She started scaring them to death (Ah no!)
Now that she's my ex
Guys, I wanna be friends again

I used to have so many more friends
She started scaring them to death
I want my friends back
I used to have so many more friends
But now I'm taking them back back back

(Chorus)
Girl I will forget you
Like I always do
Girl I'll find someone new
Who looks nothing like you
Girl I will forget you like you never wanted me to
Girl I'll find someone new
Who reminds me nothing of you

Oh girl, when you hear me on your radio tell them,
"He wrote this for me.
Ex-boyfriend on my stereo, no, that boy went crazy."

Oh, I'll forget that you ever lived
I'll forget that you ever existed
And girl you better hope my new girlfriend
Never finds out what you did.

Um I wanted you to know, that, uh

(Chorus)

Girl I will forget you
Like I always do
Girl I'll find someone new
Who looks nothing like you
When my new girlfriend finds out what you said
You're gonna be fucking dead
Girl I'll find someone new
Who reminds me nothing of you

Oh girl, when you hear me on your radio tell them,
"He wrote this for me.
Ex-boyfriend on my stereo, no, that boy went crazy."
Oh, I'll forget that you ever lived
I'll forget that you ever existed
And girl you better hope my new girlfriend
Never finds out what you did.

Girl you better hope my new girlfriend never finds out
what you did
