I can see in your face
Your dark skin in this place
If the music's too loud
We'll pick up the bass

And that time when
Way back then
You said that
This was the end
Well that time was
Way back then
Way back then

If you let me into your arms
If you let me into your heart
I'll let you in my car
And I'll let you in too
Into my car
Just let me into your arms
Yeah let me into your arms
Into your arms
Into your arms
Your arms

And I can see it in your face
Your pretty skin in this place
Well if the music is too loud
Well then we'll pick up the bass

And I left when
You said that
You'd call me
Put it on me
And I left when you said that
When you said that

If you let me into your arms
If you let me into your heart
I'll let you in my car
If you let me into your arms
I'll let you into my car

Well it's gonna be a long night
Oh yeah
It's gonna be such a long night
Well everything will be alright
Alright

If you let me into your arms
If you let me into your heart
I'll let you in my car
If you let me into your arms
I'll let you into my car

And I left when
You said that
You'd call me
Put it on me
And I left when you said that

If you let me into your arms
If you let me into your heart
I'll let you in my car
If only this car will start
Oh will it start
