Girl, I got the beats to make you move  
To the center of the floor,  
Or to the middle of LA

Yeah, I got the sounds to get you loose,  
'Til you can't feel it anymore,  
And I can see it in your face

Let's leave all our things behind,  
Get in the car and go,  
You can sleep all night,  
and wake up on the coast  
If that's what you like,  
Would you let me know, whoa

And all I wanna know, all I wanna know  
Is if you wanna come, if you wanna come  
Let's live dangerous  
And girl, lets have some fun,  
While we're still young.

Girl, I got the beats to make you shake  
Or sing to me tonight,  
Like you were on a stage

Yeah, you got the looks to make me stay,  
Right here all damn night,  
In the middle of LA

Let's leave all our things behind,  
Get in the car and go,  
You can sleep all night,  
And wake up on the coast  
Let's leave all our things behind,  
Get in the car and go,  
You can sleep all night,  
And wake up on the coast  
If that's what you like,  
Would you let me know, whoa

And all I wanna know, all I wanna know

Is if you wanna come, if you wanna come  
Let's live dangerous  
And girl, let's have some fun

Yeah, I can feel the sunlight,  
Beating right down on me,  
So tell me what's it feel like  
To be on your body?

Yeah, I can see the ocean,  
And I can smell the palm trees,  
Let's ditch these close and  
Get out to the sea

Let's leave all our things behind,  
Get in the car and go,  
S-s-sleep all night,  
and wake up on-on-on the coast  
If that's what you like,  
Would you let me know-ow, whoa

Let's leave all our things behind,  
Get in the car and go,  
You can sleep all night,  
And wake up on the coast  
If that's what you like,  
Would you let me know, whoa

And all I wanna know, all I wanna know  
Is if you wanna come, if you wanna come  
Let's live dangerous  
And girl, lets have some fun,  
While we're still young  
We're still young  
Young
