This is the happy house-we're happy here in the happy  
house oh it's such fun  
We've come to play in the happy house  
and waste a day in the happy house-it never rains

We've come to scream in the happy house We're in a  
dream in the happy house  
We're all quite sane

This is the happy house-we're happy here There's room  
for you if you say "I do"  
but don't say no or you'll have to go  
we've done no wrong with our blinkers on It's safe and  
calm if you sing along

This is the happy house-we're happy here in the happy  
house. To forget ourselves-and pretend all's well There  
is no hell.
