Burn me a fire in the reptile house  
In the colour and the carnage fall me down  
My face in the fire in the reptile house  
And the kissing and the colour come crashing down

In the fire in the reptile house  
In the colour and carnage fall me down  
My face in the fire in the reptile house  
the kissing and the colour come crashing down  
Down down down  
Down around me  
Down down down  
Down around

Face in the fire on the reptile house  
In the colour and the carnage fall me down  
My face in the fire in the reptile house  
And the kissing and the colour come crashing down  
Down down down  
Down around me  
Down down down  
Around

My Face in the fire my faith in the fire  
In the  
In the burn me down my  
My burning down  
In the fire in the reptile house  
In the colour and the carnage fall me down  
My face in the fire in the reptile house  
And the kissing and the colour come crashing  
Down

Crashing down
