My darling wants the moon
And the moon is far away
The sky is too high
It can't be reached by hand
My darling wants the moon
And the moon is far away
The sky is too high
It can't be reached by hand

I went up to the roof
People started pointing at me
They said 'We don't know what's wrong with her'
And they told the guard
I went up to the roof
People started pointing at me
They said 'We don't know what's wrong with her'
And they told the guard

I told them I wanted the moon
They told me it's expensive
It costs ten nights
Ten nights of no sleep
I told them I wanted the moon
It costs ten nights
Ten nights of no sleep

And so I've been sitting here for ten nights
Up on the roof
And so I've been sitting here for ten nights
Up on the roof
And I feel so tired and sleepy
But I'm scared to sleep, as the moon might come down
But I'm scared to sleep, as the moon might come down
And find me asleep, and then our neighbor will steal it
Our neighbor who doesn't speak to us

And then our neighbor will steal it
Our neighbor who doesn't speak to us
And she'll give it to my darling
And my darling will fall for her
And I'll become a stranger
I'll become a stranger

My darling wants the moon
And the moon is far away
The sky is too high
It can't be reached by hand

My darling wants the moon
My darling wants the moon
My darling wants the moon
