A kiss to linger  
Your kiss I savor  
You're like no other  
Your kiss I savor

Searching, I hear it call me  
Knowing it's you I hear  
The sweet embrace of you near  
Spring night descends it's sweetness on me  
This late night stroll leading  
With one thought on my mind

A kiss to linger  
Your kiss I savor  
You're like no other  
You make heaven appear

My feet assured with every step  
Night air whispers my unsaid  
I'm at your door and I shouldn't have left  
Are you mine?  
I'm closer than I've ever been  
I'm here and I'm leaning in  
With one thought on my mind...

Sweet embrace it draws you near  
I surrender all my fears
