Starry sky
All I can see
Is bright lights everywhere
My heart lights up
When I see the sky
So happy I am
For the first time

Chorus:
Oh when the birds fly
In the night sky
I think of you
Which leaves me kinda blue
I'm missing you too soon

Verse2:
The warmness starts to fade
When I'm in the shade
I guess it's just me
Need to go to the sea
Somewhere far from heerrrrreeeeee

Chorus:
Oh when the birds fly
In the night sky
I think of you
Which leaves me kinda blue
I'm missing you too soon

Ohhh missing you
Is like a knife in my hearttt
But that's how life works...
