I thought of you today when I looked up at the sunset in the sky.

Cause when I was still at home that use to be something we loved to see together.

I felt you near today when I watched our favorite movie all by myself.

And then I smiled today when I saw my favorite picture of us.

I know Im so far away from you

But I know I dont have to search high and low to see you again.

No matter where I go, no matter where Ill be youll be here always.

Cause its our memories that tag along with me and thats all I need -

Thats all I need..

Its so easy missing you cause youre going through my head a million times a day.

But Im okay when you say youre doing the exact same thing.

I know Im so far away from you

But I know I dont have to search high and low to see you again.

No matter where I go, no matter where Ill be youll be here always.

Cause its our memories that tag along with me and thats all I need -

Thats all I need..

Ooooh

Ooooh..

No matter where I go, no matter where Ill be youll be here always.

Cause its our memories that tag along with me and thats all I need -

Thats all I need

No matter where I go, no matter where Ill be youll be
here always.
Cause its our memories that tag along with me and
thats all I need -
Thats all I need
