Ooh ohh
Yeah

Cali Cali Cali California
I won't forget that day
The sunlight opened my eyes
First kiss on the beach is like paradise
Cali Cali Cali California
I won't forget that night
The palm trees swinging above
One touch and I knew it was California love

Ooh ohh

I'm dreaming of a sunny place
Where the ocean waves fill up my mind
I forget about everything
And I just sit back and I really don't whine
But life ain't going that way
When you don't have enough power to stop
All these crazy situations you find yourself in
But you can't get out of

Texas heat it drives me crazy
But it don't matter cause in my mind

Cali Cali Cali California
I won't forget that day
The sunlight opened my eyes
First kiss on the beach is like paradise
Cali Cali Cali California
I won't forget that night
The palm trees swinging above
One touch and I knew it was California love
Cali Cali Cali California love
Cali Cali Cali California

If I could just feel the sand on my toes
And remind myself that there is some hope
Realizing I'm the only one
Who's got enough power to save my soul

But Momma I swear to you when I get there
Everything's gonna be better
But it's still a thousand miles away from home
Wanna hurry up and get there

Texas heat it drives me crazy
But it don't matter cause in my mind

Cali Cali Cali California
I won't forget that day
The sunlight opened my eyes
First kiss on the beach is like paradise
Cali Cali Cali California
I won't forget that night
The palm trees swinging above
One touch and I knew it was California love

Texas heat it drives me crazy
I wanna chill out baby, I'm feeling lazy
And every day's the same and it brings me down
But it don't matter cause soon I'll be there

Cali Cali Cali California
I won't forget that day
The sunlight opened my eyes
First kiss on the beach is like paradise
Cali Cali Cali California
I won't forget that night
The palm trees swinging above
One touch and I knew it was California love

Cali Cali Cali California love, ohhh
Cali Cali Cali California love, yeah
Cali Cali Cali California love, ohhh
Cali Cali Cali California love
