"Rolling Home"

Lightyears to
Be found
Gaze out of my window
Want to feel
What it is like to belong
Lead us
Right through the night
Help us
Find a place
To call home

Chorus:
We are rolling home
We're rolling home
No more hearts to break
No more to roam
There's no one waiting

There's no oneTo say
Goodbye
So guided
By a wanderin' star
We are rolling home

There's a silverline
Over the horizon
And it fades
The dreams we've lost
Long time ago
You are near
There's no fear
Lost but not alone
Going home

Chorus
