Say what you want about me  
Yeah yeah yeah  
Say what you want about me  
Right now

All by ourselves  
She wanted to show we can do anything  
All by ourselves  
You can read all about it in the book that's been flying  
Off the shelves  
There's dozens of sales but they say that all good  
things  
Come in twelves  
And that is scary at times

Say what you want about me  
Yeah yeah yeah  
Say what you want about me  
Right now

All in good time  
This story could work as a tellable tale  
All in good time  
But the do-it-yourselfers want to do it so they can  
See a dime  
Chances are you could see us selling as south as  
Anaheim  
Keep dreaming, if you know me well then you  
Know that I'm  
Willing to take that chance

Keeping in mind I believe that we're history makers  
(please tell me who you think you're affecting)  
But the do-it-yourselfers are preparing for that one too  
(keep dreaming cause I know you're collecting)  
I only hope we can make it in time  
But nothing's for sure, is for sure  
Oh yeah

Say what you want about me  
Yeah yeah yeah

Say what you want about me  
Right now

Say what you want about me  
Yeah yeah yeah  
Say what you want about me  
Right now

You've got me

Turning and tearing  
Tearing and turning  
Turning and tearing out

Turning and tearing  
Tearing and turning  
Turning and tearing off

Turning and tearing  
Tearing and turning  
Turning and tearing out
