"Need You Tonight"

Visit "[Need You Tonight](#)" on MotoLyrics.com

been away been away been away for a while
been a day been a day since i seen your smile
been away been away from myself
dont even want no body else

its got to be
oh like like we need
its you i need
and i need you tonight

been a while been a while and i see
days passing by so empty
i'm out there in this crazy world
dont you miss your sugar girl

its got to be
oh like we need
its you i need
let me tell you
its got to be baby you and me
its you and me
and i need you tonight

been a while been a while and i see
visions of you haunting me
and i can only blame myself
these miles away they cannot help

[guitar solo]
its got to be
oh like we need
its you i need let me tell you
its got to be baby you and me its you and me
and i need you tonight

[sax solo]
