I stole your money and took your car  
Blew out your system and went too far  
Now you're so lonely. I made you cry  
Don't need no reason to kiss your ass goodbye

I'll tell you something. Don't take it bad  
Cause I'm the best thing you ever had

#### CHORUS

I am the best thing you ever had  
I'm the best thing you ever had  
You know you want it and you want it bad  
I'm the best thing you ever had

I took your best friend and made him crawl  
Mikey liked it. He ate it all  
And when you found out you could have died  
Was it the same thing I felt inside?

I'll tell you something. Don't take it bad  
Cause I'm the best thing you ever had

#### CHORUS

(solo)

I saw your daddy. He came to town  
I didn't know he liked to get down  
All three inches, father like son  
Next time you see me, you better run

I'll tell you something. Don't take it bad  
Cause I'm the best thing you ever had

#### CHORUS
