To the ages I am speaking
Creatures I am sky
Bloody simple features
Everyone chooses sides

We are inside
We are inside now
We are inside
We are inside

Saturnine
How'd I'd love to waste your time
Saturnine
Saturnine

Goodbye all you widows
Tearstain on the name
Blessed to the many
Who are seeking some relief

Saturnine
How I'd love to waste your time
Saturnine
Saturnine
Saturnine
You are waiting on a sign

Camera take this picture
The wreckage is outside
We have all forgotten
We are losing light

We are inside
We are inside now
We are inside
We are inside
You always run
'Cause you'll never find
Saturnine
