And now it's time to go to bed
My darling rest your weary head
But I have work I should begin
So I will tuck you in
And I will kiss your tears away

I never thought I'd run to you
I thought I'd better things to do
But now I can't wait for the day
When by your side I'll lay
And I will kiss your tears away

I will give you everything
I will make your every dream come true
I will be the one you need
You know I'm the one to see you through

I will give you everything
I will make your every dream come true
I will be the one you need
You know I'm the one to see you through

And now it's time to go to bed
My darling rest your weary head
But I have work I should begin
So I will tuck you in
And I will kiss your tears away
