So you've got nothing to say to me  
You'll waste your money today thinking of me  
You've got nothing inside  
So there's no need to hide  
An apocalypse dream  
Is you thinking of me

Feed the wolf  
Feed the wolf  
Feed the wolf  
Feed the wolf  
Help me again  
Am I caught dear? Are we lost?

So you do it again, after all we bowed  
So where is the end? No end is not allowed

A game of cat and mouse you own  
Am I naive? Or lost in love? Or both?  
Will I ever, ever know?

Damn you, you're so fucked up and alone  
You'll take me, you take everyone  
There is not an animal that doesn't know  
Another failure still born, another pacifist reborn  
You're not lost, you're just a fucked up kid, we're not  
evil but why were you born?

Feed the wolf  
Feed the wolf  
Feed the wolf  
Feed the wolf

Help me again? Am I caught dear? Are we lost?  
Help me again? Am I caught dear? Are we lost?  
Help me again? Am I caught dear? Are we lost?
