Up in the air
Far away from here
Looking for a way
Naver ending pain

And time after time passing by all the same
Every step you take seems all in vain

So why are there
Such hard roads to go
Why try to get further than before
Come what may

The moment of dreams
So sacred running like the wind
The moment of dreams
So glorious flying like a flash light

One step will make it
True faith will make
The moment of dreams
So true it lasts forever

[Chorus]

Out in the dark
Heading for nowhere
Losing your way
Going down the drain

And cry for the moon
No dim lights out there
Inner voice of pain calling again

So why are there
Such hard peaks to climb
Why try to get higher than before
Come what may

The moment of dreams
So freely flowing like a stream

The moment of dreams
So proudly soaring like a bright star

One step will make it
True faith will make
The moment of dreams
So true it last forever

All the time you spend
All the blood and sweat and tears
Of your endless work
Would make your dreams come true

Beyond the time and space
Beyond the limits of
Your power it exists
And we call it miracle

The moment of dreams
So sacred running like the wind
The moment of dreams
So glorious flying like a flash light

One step will make it
True faith will make
The moment of dreams
So true it lasts forever

[Chorus]
