There's a revolution dawning
And love is on our side
If we answer to the calling
The light will guide our way in the night

Through so many changes we stand for what is real
In spite of the persecution
We live to do His sacred will

Can you feel it coming?
In the name of love
I see a new day dawning
Rolling like a river, flowing to a sea of fire

Blood, blood, blood
Cover my life with the blood
Blood, blood, blood
Cover my life with the blood

Now take a look around you
Tell me what it is you see
I see the masses crying out to be set free

Can you feel it coming?
In the name of love
I see a new day dawning
Rolling like a river, flowing to a sea of fire

Blood, blood, blood
Cover my life with the blood
Blood, blood, blood
Cover my life with the blood

Blood, blood, blood
Cover my life with the blood
Blood, blood, blood
Cover my life with the blood
