"Coldbeat"

Something in my heart says
The rules are inside us
Something in my heart says
The beast go and sigh
Something in my heart says
Groove to the heartbeat
Groove to the point where
The heart collides
We go hard
We know the Coldbeat
The fear is never empty
We know the Coldbeat
All of our lives
We know the Coldbeat
The fear is never empty
We know the Coldbeat
All through our lives

[repeat]

Don't wanna be the Coldbeat [x8]
Don't wanna feel [x4] anymore
Don't wanna feel [x4] anymore
Don't wanna feel
Who wants to feel
Don't wanna feel [x8]
