[Age Against the Machine] Check one two, awww yeah!  
Uhhh! Check the {ish} out I got you, where I want you  
Your clock's run out of time Cause you know I know you,  
and I'll show you That the heat you feel is mine Yeah  
fear's gripped you, and it ripped you And you question  
what is true So, consider me your preacher come to  
explain it all to you [Chorus] Get on your knees! Get  
down on your knees! I'll bring you to your knees! On  
your knees! [Age Against the Machine] That bead of  
sweat betrayed you Like all the lies that made you what  
you are A politician All talk but no conviction Always  
certain with no reason A rotten fruit sold out of season  
Now I've come for your confession and to punish your  
transgression [Chorus] On your knees! I'll get you on  
your knees! Yeah I'll bring you to your knees! Owww..  
on your knees! [Age Against the Machine] C'mon!  
That's it that's it! Down on your knees! {\*guitar solo\*}  
On your knees! Yeah! The heat you'll feel is mine! Ahh!  
I'll bring you to your knees! The heat you feel is mine!  
Ahh! The heat you'll feel is mine! I'll bring you to your  
knees! Go! Go, go~! Go! Go!
