She came around and woke me from this dream
Hitch hiking this life with no direction
I was a king without queen 'til she came around
In a best 3 star attire
In that old blue dress she stole my breath and lit my
world on fire
When she came around
When she came around

Give me the heartbreak
Give me the pain
Give me your sweet taste and take it away
Cause I don't need nothing no oh the rest just burned
away
When she came around

She came around and cracked the code to my heart
She broke me at the seams, hell she tore the whole
thing apart
When she came around with fireworks in her eyes
She's got me going crazy heaven help me sleep at
night
And she came around
She came around

Give me the heartbreak
Give me the pain
Give me your sweet taste and take it away
Cause I don't need nothing no oh the rest just burned
away
When she came around

When she came around
She came around

Give me the heartbreak
Give me the pain
Give me your sweet taste and take it away
Cause I don't need nothing no I been burning since the
day she came around
