Do you feel, do you feel alone?  
Do you feel, do you feel alone?

Is this over or I'm not it?  
We're not ok or I'm not it?  
You pulled the trigger, oh, I'm not it  
You walked away, oh, I'm not it

Young gun, what have you done?  
They running the guns, they running the guns  
Young gun, what have you done?  
They running the guns

Do you feel, do you feel alone?  
Do you feel, do you feel alone?

You're always broken, oh, I'm not there  
I cannot stay, oh, I'm not it  
It's getting old now, oh, I'm not it  
I'm not ok, oh, I'm not it

Young gun, what have you done?  
They running the guns, they running the guns  
Young gun, what have you done?  
They running the guns

Do you feel, do you feel alone?  
Do you feel, do you feel alone?

Young gun, what have you done?  
They running the guns, they running the guns  
Young gun, what have you done?  
They running the guns

Do you feel, do you feel alone?  
Do you feel, do you feel alone?
