Rise up it's getting late
No sleep no medication
Movement is underway
Consumed by my own frustration
My social coup de teat
To liberate the unconscious minds
Minds by design
Incarcerated in your own boredom

(Stay up)
Fight for the rest of your life
(Stay up)
Taking action to survive
(Stay up)
Just shoot move communicate
Just shoot move on instinct

Go in constant anxiety
Go like children on xmas eve
It's 6 straight days of working
Hard again
I got bills to pay
Kids to feed
Can't wait around to hit the lottery

These are the best of time for the worst of minds
Whose side you on
I put the tape in and drive
Real far

Rise up it's getting late
No sleep no medication
Movement is underway
No outlet for my frustration
Take it
Take away the wait away
Make tracks today
I drive with one eye closed
Never gonna blink on this open road
