Conjugate these prison bars
It's like, that's right, the uprising starts
(Stay on the mark)
Fashion victim indiscreet
Your destiny is hooked on speed
No time to think for yourself
You're feeding the flames

Four in the morning, you're still up
Lost in the cuts
When they come to scrape you up
Feel this time, your vision's a cloud

There's a time, will come
The only solution is life
It's a popular weapon
Preaching the gospel

It's torture to disinfect
To liberate, it's beneath your fucking skin
The rivers filled with caution in your mind
It's torture, the lessons to reflect

To disinfect, defuse
The poison culture from behind
To liberate, the time will come
It's beneath your fucking skin

When I put this wreckage on
It's my slow ride to the depths of art
(Call it a crutch)
This revolution starts with shaving the hair
Off your private parts
The message is come clean
And the meaningful gauge contortion

I walk this road myself
So when they come to right your wrongs
Get Buddha-sized
Believe in me now

There's a time will come

The only solution is life
It's a popular weapon
Preaching the gospel

It's torture to disinfect
To liberate, it's beneath your fucking skin
The rivers filled with caution in your mind
It's torture, the lessons to reflect

To disinfect, defuse
The poison culture from behind
To liberate, the time will come
It's beneath your fucking skin

To liberate
It's beneath your fucking skin

El Salvador, El Salvador
El Salvador, El Salvador, go
