Rise up, it's getting late
No sleep, no medication
Movement is underway
Consumed by my own frustration

My social coup de teat
To liberate the unconscious minds
Minds by design
Incarcerated in your own boredom

Stay up
Fight for the rest of your life
Stay up
Taking action to survive
Stay up
Just shoot, move, communicate
Just shoot, move on instinct

Go
In constant anxiety
Go
Like children on Christmas eve

It's straight, straight, straight
6 straight days of working hard again
I got bills to pay, kids to feed
Can't wait around to hit the lottery

Stay up
Fight for the rest of your life
Stay up
Taking action to survive
Stay up
Just shoot, move, communicate
Just shoot, move on instinct

Stay up
Fight for the rest of your life
Stay up
Taking action to survive
Stay up
Just shoot, move, communicate

Just shoot, move on instinct

These are the best of times for the worst of minds
For the worst of minds, whose side you on
I put the tape in and drive real far

These are the best of times for the worst of minds
For the worst of minds, whose side you on
I put the tape in and drive real far

Stay up
Stay up
Stay up
Stay up

Rise up, it's getting late
No sleep, no medication
Movement is underway
No outlet for my frustration

Take it, take it, take it
Take away the wait away, make tracks today
I drive with one eye closed
Never gonna blink on this open road

Stay up
Fight for the rest of your life
Stay up
Taking action to survive
Stay up
Just shoot, move, communicate
Just shoot, move on instinct

Stay up
Fight for the rest of your life
Stay up
Taking action to survive
Stay up
Just shoot, move, communicate
Just shoot, move on instinct

Stay up
Stay up
Stay up
Stay up

These are the best of times
