Call me

I used to think that we could never make it
That million hearts could never beat as one
But now, miracle is not so hard to find

There were times when I really doubted
If, after stormy weather, always comes the sun
But now, I can see the world from a different side, yeah

Singer after singer, remembered
Different flags, but nations gathered
From the north to the south, all standing side by side

There was laughter and there was crying
But after all, I'm not denying
I'm so happy to be here, 'cause it's the time of my life

Ring nu

Til mig hver gang du er ensom
Mit stÅ_rste Å_nske, det er enkelt
Syng med mig, sÅ¥'n ska' det vÅ|re
For resten af livet

Tag og ring nu

For sammen, der nÅ¥r vi helt til tops
Forenet i sang er alt der ska' til
Festkag'n fÅ¥r et halvt hundred' lys
SÅ¥ fejres mange lykkelige Å¥r

There were times when I really doubted
If, after stormy weather, always comes the sun
But now, I can see the world from a different side, yeah
