She was born from fire 23 years ago
And I came from the drama of another
She has got me so completely blwon out this daisy
Pull my better situation

And her music hits me hard
Like a past due erection
And by the way girl
Guess who's got protection
Oh I'm...

Cuckoo

In my bed
A lovely place for you to rest your head
Girl if you could be any crayon which color would you
be
Oh, this small talk's killing me
You got me...

Cuckoo

On and on and on and on and on
And on and on and on and on and on and on and on
You are my love ranger baby
Could you find in your heart to make me...
To make me your Tonto
Oh Juliet
You've got me wet tonight
And I am so wet tonight
Oh Juliet
You've got me wet
From the love
From the love

In my bed
