I wish I could wrap up the sky and give it to you
It's my favorite thing
And in it I'd like to carve your name
Beautiful you
Impossible gift
Yes it's true
Well I know
But think of it as a measurement of my love to you

Run with me tonight into the light of our love
Sleep with me today under the pouring rain
Follow me tonight out of the sight of our town
And dance with me today until we drive the rain

The rain away
The rain away
The rain away

I wish I could wrap up the sky and give it to you
It's my favorite thing
And in it I'd like to carve your name
Beautiful you
Impossible gift
Yes it's true
Well I know
But think of it as a measurement of my love to you

The rain away
