The plot thickens, the plot thickens
The plot thickens, the plot thickens
The plot thickens, the plot thickens
The plot thickens, the plot thickens
When we come through

Nothing goes wrong, for stuffin in the muffin
Less a mussin grows long
You wanna know what goes on
I tell her lost broad, take your coat off
Keep your clothes on
Enough with all the oh lost, people hold on
Regardless what IÂ'm tolding off
I donÂ't pro long
DonÂ't know these lights IÂ'm all my lawn
I take a load off oh my lord
Know my god
I go hard, feel it on the pope with no drugs
Wild card, laying in the cup with no broads
Course no asses, getting kisses no course
Shut down cops, tryina friss the kid with no chords
I ainÂ't a player, know the fluses is all flod
My life is like a movie and I play with no cause
And even there is house Â... so core
My skin got no pores

The plot thickens, the plot thickens
The plot thickens, the plot thickens
The plot thickens, the plot thickens
The plot thickens, the plot thickens
When we come through

I never get comfy, thatÂ's the way to get poor
I never get hungry and I never get fool
I sip on jet fuel, monks chicks wearing blonde wigs
Steady dress, straight looking dreadful
I donÂ't do dental or medical
I aim strong, mind is on Â...chateau
Community I lost, toast goons and reptiles
My unity consists both jews and chance house
I came off 3 blocks of mag douse

No wonder why crack comin crack foul
Sellin crack's foul
The kids used to back down, I play the jack styles
Still afraid to crack smiles
I'm in the field, tryina give you something you can
feel
Know something tagged out
I'm making tracks so I track down
I make cracks, moving and grooving passing so many
sounds
But I be making tracks like I be moving around

The plot thickens, the plot thickens
The plot thickens, the plot thickens
The plot thickens, the plot thickens
The plot thickens, the plot thickens
When we come through

I snatch the ribbon off the scotch
And she about to come and look like she about to cry
Too bad you look surprised,
I need to spend of a barrel like a parrel
Like I need a parrel right between the eyes
I caught a couple comments, rocking frauds and ...
eyes
But I never compromise
It's those that wanna knock my way of life
Like how we found our lane, I'm rocking labels
Plus he never wait in line
My current state is new york state of mind
Natives wanna damn trunks can hold a day the time
... whatever in the product, try at least enjoy the
broad
At least enjoy the ride

The plot thickens, the plot thickens
The plot thickens, the plot thickens
The plot thickens, the plot thickens
The plot thickens, the plot thickens
When we come through
