Waking from a deep sleep
escape from humanity
waking from a deep sleep
you're the only one for me

You mezmorize me
I say You mezmorize me
I say You mezmorize me
I say You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)

Escaping from a dark space
Your eyes locked inside fate
darkness is your old friend
consumed in your own fate

You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)
You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)

please please believe me
when i say that you are falling
please don't forget me
this is just heaven calling

You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)
You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)
I say You mezmorize me (you mezmorize me)
