"How Do You Think It Feels"

Visit "[How Do You Think It Feels](#)" on MotoLyrics.com

How do you think it feels
When you're speeding and lonely
Come here baby
How do you think it feels
When all you can say is: If only
If only I had a little
If only I had some change
If only, if only, only
How do you think it feels
And when do you think it stops ?
How do you think it feels
When you've been up for five days
Come down here Mama
Hunting around always - ooh
'Cause you're afraid of sleeping
How do you think it feels
To feel like a wolf and foxy
How do you think it feels
To always make love by proxy ?
How do you think it feels
And when do you think it stops ?
When do you think it stops ?
