"Turn Out The Light"

Visit "[Turn Out The Light](#)" on MotoLyrics.com

Lover, lover, why is there light
In the itchy gitchy evening and it's dark outside
And what is the difference between wrong and right
Wrong and right
Isn't it funny how pain goes away
And then comes back another day
The air feels very good today
Good today
Lover, lover, why is there light
Did you forget to turn off that light
Well that's all right but it's way too bright
Way too bright
See the eagle above the hill
The lake reflects and is so still
The tension has gone from my will
