You'll light on fire  
I'll be outside  
last one to notice  
run for your life

I watched you suffer  
from the first floor  
Time of our lives shook  
hands waved goodbye

You'll light on fire  
I'll be outside  
last one to notice  
run for your life

Something's got you  
broken into  
Something's got you  
broken into  
Something's got you  
broken into  
Something's got you

I'll be home

Some said to look  
Some said to cry  
You tried your best but  
Your eyes stayed dry

You'll light on fire  
I'll be outside  
last one to notice  
run for your life

I'll be alright

I'll be alright
