### "With You"

Somewhere somehow sometime ago  
back when the field were filled with snow  
I hardly knew what I had to say  
I hardly knew what I had....  
I was with you when you went  
down down down  
to see you again  
I was there I heard you say  
Hey hey hey  
Wish you were here  
Sleep well sleep in sleep best alone  
Don't cry your eyes are made of stone  
I hardly cared when you left me there  
I almost left  
I was with you when you went  
down down down  
to see you again  
I was there I heard you say  
Hey hey hey  
Wish you were here
